Professional Summary

ISTQB Foundation Level Certified Senior QA Automation Engineer with 10+ years of experience in UI Automation, API Testing, CI/CD integration, and Agile delivery across enterprise applications. Proven expertise in designing and developing robust automation frameworks using Selenium, Playwright, C#, Java, NUnit, and TestNG. Hands-on experience leveraging GitHub Copilot and AI-assisted prompt engineering to enhance test automation productivity, accelerate code generation, streamline debugging, and optimize test case design. Skilled in REST API validation, regression testing, cloud-based testing, and integrating automated test suites within CI/CD pipelines using Jenkins, TeamCity, and Azure DevOps. Strong understanding of SDLC/STLC methodologies, defect lifecycle management, BDD frameworks, and mentoring QA teams to deliver high-quality software solutions in Agile environments.

Technical Skills

- **Automation Testing:** Selenium WebDriver, Playwright, UI Automation, Functional Testing, Regression Testing, Smoke Testing
- **Programming:** C#, Java
- **Frameworks:** NUnit, TestNG, BDD Frameworks, MSTest
- **API Testing:** REST API Testing, Postman, Swagger, API Validation
- **AI & Productivity:** GitHub Copilot, Prompt Engineering, AI-assisted Test Automation
- **CI/CD & DevOps:** Jenkins, TeamCity, Azure DevOps, SonarQube, Github, TFS
- **Methodologies:** Agile, SDLC, STLC
- **Database:** SQL Server, SQL Queries
- **Documentation:** Pickles Living Document, Test Strategy, Defect Reporting

Professional Experience

Senior Quality Engineer – S&P Global | Aug 2022 – Present

- Developed and maintained scalable automation frameworks for enterprise applications.
- Performed UI automation and API testing using Selenium, C#.
- Worked on a project as a individual contributor to automate the smoke End To End Intefration Test suite based on Playwright and type script.
- Integrated automated test execution into CI/CD pipelines using Teamcity
- Used GitHub Copilot and prompt-based AI assistance to accelerate automation script development and debugging.

- Experienced in preparing comprehensive Test Strategy, Test Plans, Test Scenarios, and Test Cases for enterprise applications.
- Skilled in defining test scope, test objectives, risk assessment, resource planning, estimation, and test execution approach.
- Exploring AI Adaption like to integrate with Report portal for regression dashboard which can measure the test from previous run.
- Collaborated closely with Product Owners, Developers, and QA teams in Agile environments.
- Mentoring New joiner to adapt the testing practices .
- Proficient in preparing test metrics dashboards, execution reports, and maintaining testing documentation using Agile tools.

Senior Automation Test Engineer – Automatic Data Processing (ADP) | Feb 2021 – Aug 2022

- Built automation frameworks and regression suites for web applications.
- Performed API and UI validation for critical business workflows.
- Implemented continuous integration practices using TeamCity and Jenkins.
- Prepared reusable automation components and optimized execution time.
- Drove the Testing activity for the team with test plan , test strategy.

Associate Consultant – Capgemini | Dec 2019 – Jan 2021

- Managed functional, regression, and system testing activities.
- Created test strategy documents, test scenarios, and defect reports.
- Coordinated with cross-functional teams to ensure successful product releases.
- Mentored junior QA engineers and supported Agile delivery practices.

Senior Automation Engineer – Accenture Solutions India Pvt. Ltd. | May 2016 – Nov 2019

- Developed automation scripts using Selenium WebDriver with C#.
- Performed backend validation using SQL queries and API integrations.
- Reduced automation suite execution time significantly through framework optimization.
- Worked on healthcare and Microsoft enterprise applications.

Software Engineer – Alchemy Techsol | Feb 2016 – Apr 2016

- Worked on SaaS applications and API integrations.
- Supported functional testing and automation activities.

Key Projects

- **Cigna Healthcare:** Healthcare insurance application automation using Selenium C# and NUnit.
- **Microsoft MSL:** Enterprise sales licensing platform automation and integration testing.
- **Global Resources Management:** Web application integrated with Azure Active Directory and APIs.
- **SaaS API Integration Platform:** Worked on multi-API integration validation and automation.
- **Equity Book Build :** Worked on Building Automation solution and designing the Test script for regression suite .
- **Truestage Insurance app-** Build and Api automation solution and integrated with azure pipeline.

- **ADP HRMS-** Build an automation solution and driving testing activity for the team

Certifications

- Professional Agile Certified
- ISTQB-BCS Certified Tester Foundation Level
- Star of the Month – Capgemini
- Team Contributor – ADPO
- Team contributor for Bladrunner Project migration – S& P Global

Education

- B.Tech/B.E. in Computer Science – Maharaja Institute of Technology, Bhubaneswar (2012)
- Inter – Charampa Maha Vidyalaya (2008)
- 10 th – Kendividyalaya Balasore (2006)
